FaiconLingo

Preserving Heritage, Empowering Future.

Zambian Identity   Digital Innovation

The Problem

Disconnected Youth

Young Zambians are increasingly detached from their mother tongues due to urbanization and English dominance.

Fragmented Resources

Existing learning materials are outdated, academic, and lack the digital engagement that Gen-Z expects.
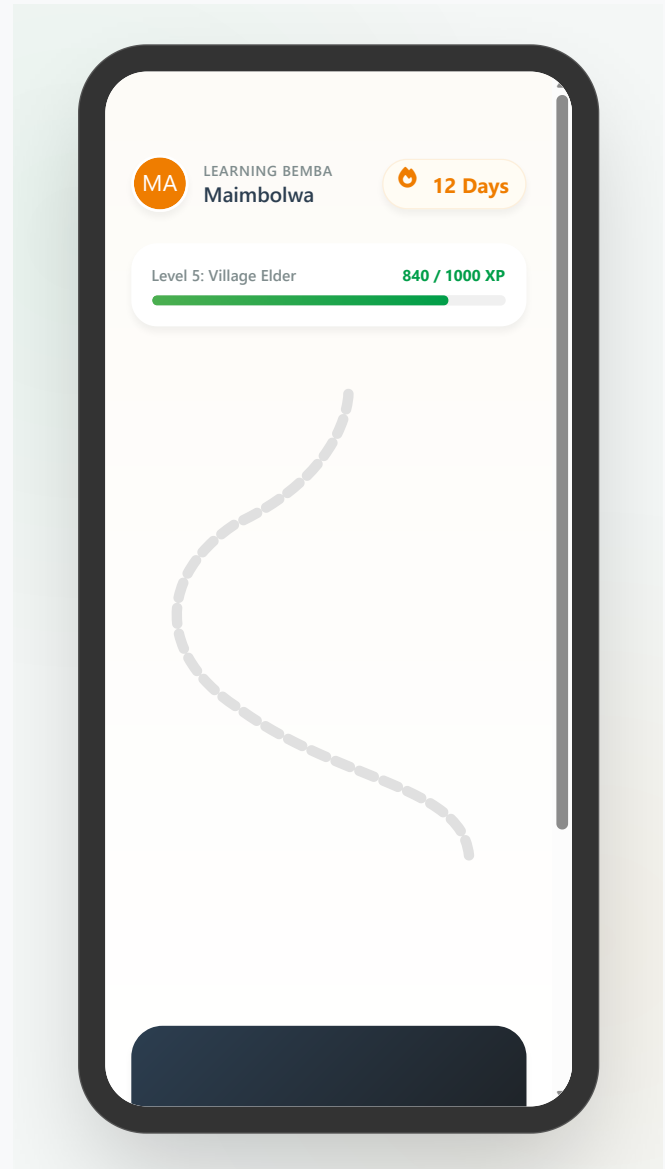

Our Solution

- **Gamified Learning:** Turning lessons into a "Hero's Journey".

- **Cultural Context:** Teaching manners & proverbs, not just words.

- **"High-Def" Quality:** A premium, polished experience to rival global apps.

FaiconLingo

Why This Matters

1. The Journey

We replace boring lists with an immersive **Village Path**.

- **Visual Progression:** Users travel from the City to the Village.

- **Daily Streaks:** The "Flame" encourages daily habit formation.

- **Clan Verification:** Users must interact with real elders to earn special badges.
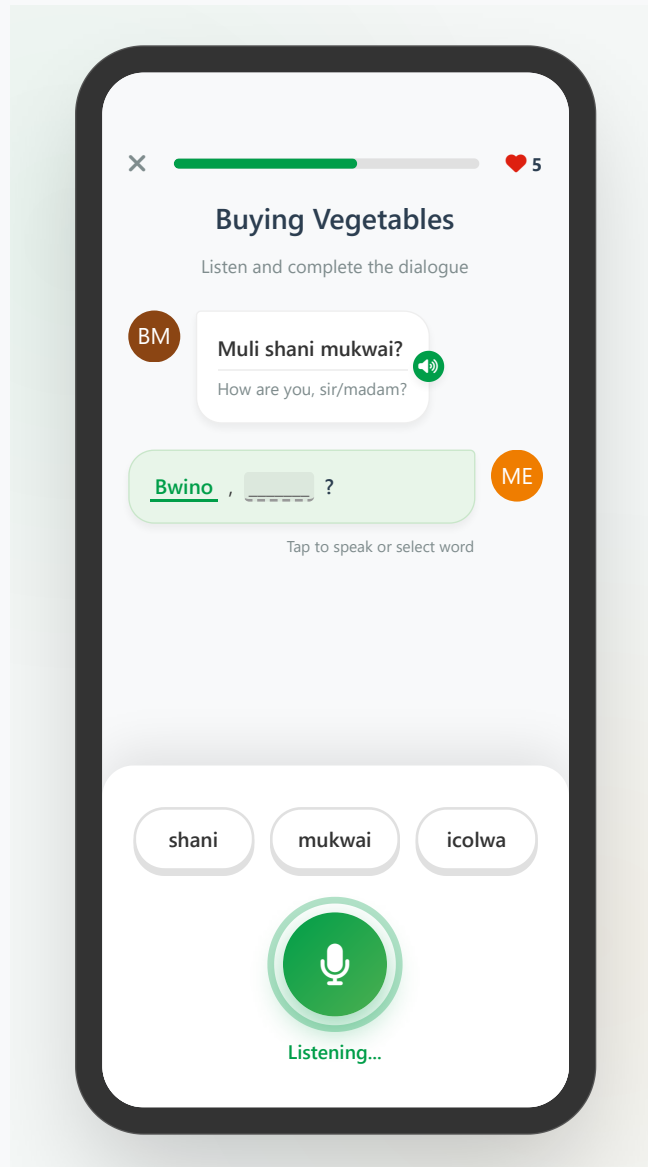

MA **LEARNING BEMBA**
